WATER RIGHTS

Mr. Don Norseth
State Engineers Office
231 East 400 South
Salt Lake City, Utah 84111

Dear Don:

I am writing in regards to the court order No. 3444 that was brought to your attention by Dave Murray at the annual Deep Creek meeting. This was in regards to some vague amount of water that was to be delivered to Olie Justice because of Mosby dumping its water into Deep Creek.

Mosby Irrigation Co. is of the same opinion as you interpreted that court-order the day of the meeting. We feel that the court-order doesn't state what water or whose water is to be delivered if any.

Olie Justice is entitled to the water that his water-rights call for but no more and we feel strongly enough about this to take legal action although we would rather avoid having to do so.

As I recall the day of the meeting you were going to have the attorney general look into the situation. I realize that you are extremely busy but if you could give us some assistance on this matter I would surely appreciate it.

Thankyou so much,

Lance Luck

Lance Luck
President, Mosby Irrigation Co.
